

# NSSE Engagement Indicators

The **National Survey of Student Engagement (NSSE)** measures student engagement across ten **Engagement Indicators (EI)**.

Each EI provides valuable information about a distinct aspect of student engagement by summarizing students' responses to a set of related survey questions.

Institutions receive scores of **0-60** on each indicator.

SF State's average scores on each indicator were evaluated against three comparison groups:  
 Other CSU campuses  
 Institutions in the Carnegie class (10k+ public)  
 NSSE 2016 and 2017 cohort.

In the NSSE, each EI has a corresponding theme:

## How engaged were SF State Students?

## How Does SF State Compare to Similar Institutions?

Averages and significant differences between SF State and comparison groups

### Theme 1: Academic Challenge

Colleges and universities promote student learning by challenging and supporting them to engage in various forms of deep learning.<sup>\*</sup>

### Theme 2: Learning with Peers

Collaborating with others in mastering difficult material and developing interpersonal and social competence prepare students to deal with complex, unscripted problems.<sup>\*</sup>

### Theme 3: Experiences with Faculty

Students learn firsthand how experts think about and solve problems by interacting with faculty members inside and outside of instructional settings.<sup>\*</sup>

### Theme 4: Campus Environment

Students benefit and are more engaged in supportive settings that cultivate positive relationships among students, faculty, and staff.<sup>\*</sup>

## Why are Engagement Indicators important?

Student engagement is associated with positive outcomes such as retention, graduation and satisfaction.

Which indicator received the highest score in each college?

## How satisfied was each college?
